

Openfunds Fields (sorted by OF-ID)

Status: FINAL

Version: Version 2.13.0
(Including fields of this and all preceding versions.)

Date: 2026-03-23

Notice: IMPORTANT NOTICE:

Version 2.13.0 introduces new fields and enhancements, including extensions to the Corporate Action concept (Investor Elections and multiple Proceed Components) to align with ISO 20022, a new Investor field level (prefix 'OFIN') to support Investor Concentration reporting, the adoption of EMT 4.3, and a harmonised framework for Home Country Legal Structures replacing several previous fields. The release also includes corrections and minor updates. To receive more information about the openfunds initiative, visit <https://www.openfunds.org>.

In general, openfunds uses lower case for values, i.e. "yes" / "no". However, implementations of interfaces based on the openfunds standard should not be case sensitive as many existing systems use a different diction.

Please note, that as a general rule an empty field means "unknown" within openfunds. To avoid any deletion of a value in the receiving database, openfunds recommends using the command "[IGNORE]" instead of a value. (Without quotation marks but including square brackets. All capital letters).

Excel knows different ways of formatting percentage figures. As some of them might not convert properly into decimal figures, openfunds strongly recommends using decimal figures only.
